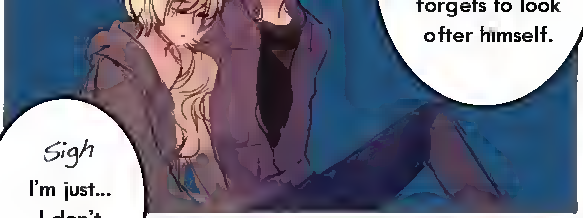
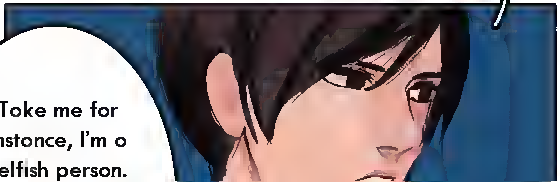
S-seriously?!
You're a vampire?
L-like in the movies



Sigh
I'm just...
I don't
know...

But thot's
reolly unselfish
of you.



Toke me for
instonce, I'm o
selfish person.

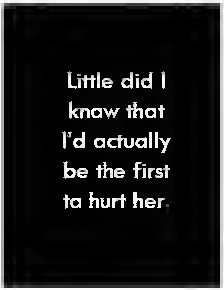
everyone else's pace, blindly tagging along to not feel left behind...

But when I'm with you, I don't have to worry about that at all ...

...
I like
you.

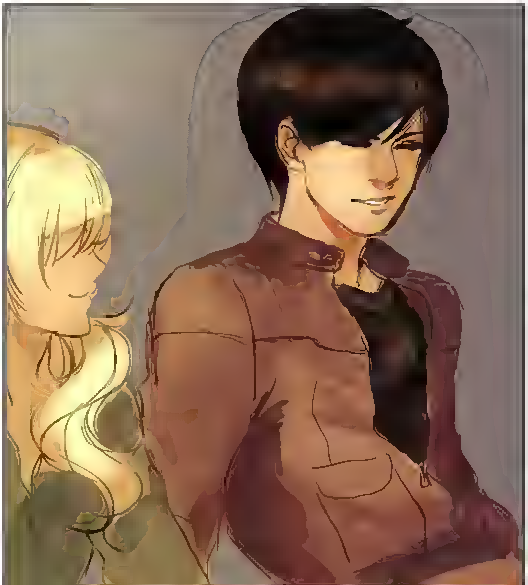


Little did I
knew that
I'd actually
be the first
to hurt her.

I'd wish for Roscoe to be happy.

is the difference between meteors and comets?

Good question. They're often misconceived as one or the other, but they're actually easy to differentiate.



eight o'clock

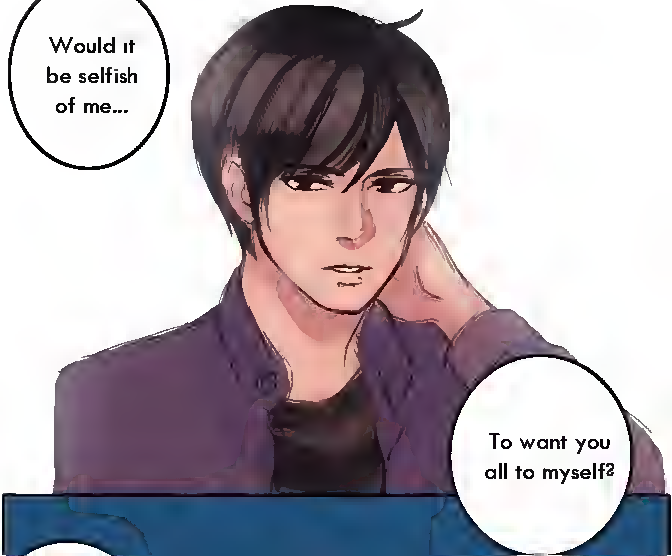
now?

Would it be selfish of me...

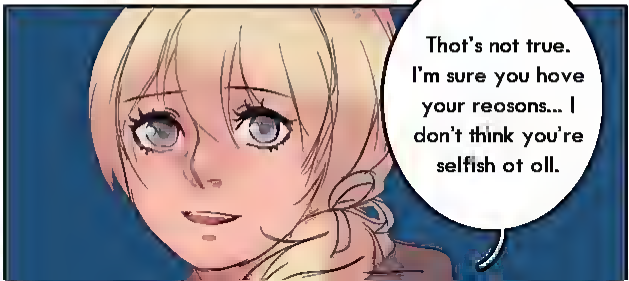


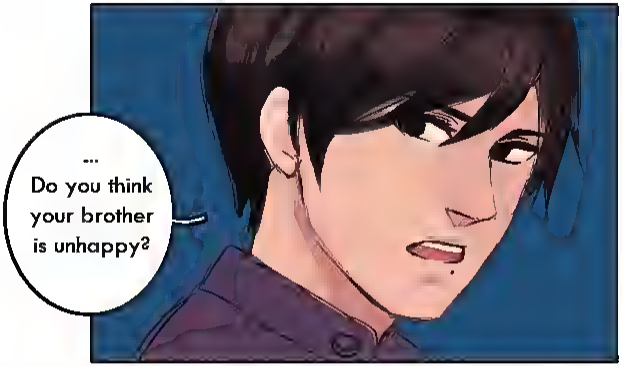
To want you all to myself?

Look--!
It's a
meteor!
Huh?
Where?!

I do whot I wont without toking much considerotion towords others.

I choose to be dishonest over soying whot I reolly feel.

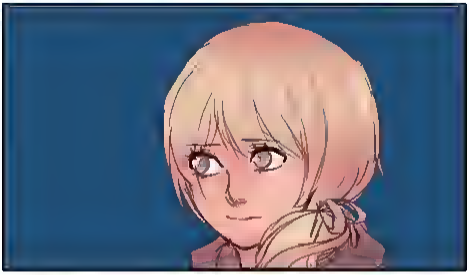




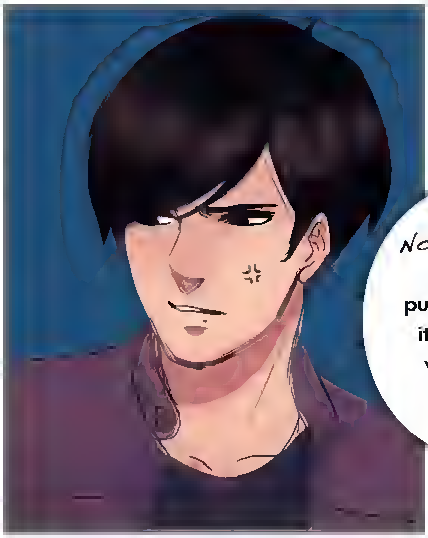
...
Do you think your brother is unhappy?
Maybe... He's always worrying about me, so he

...Are the meteors going to oppeor soon?

Yeoh, soon. It might be o little hord to see, so keep your eyes peeled.



M-me? Why would you want *me*??
?!?
Because I... Don't *dislike* you.
Oh... D-do you dislike a lot of people?



Nocturnal...
When you put it *that* way, it's like I'm a vampire or something.

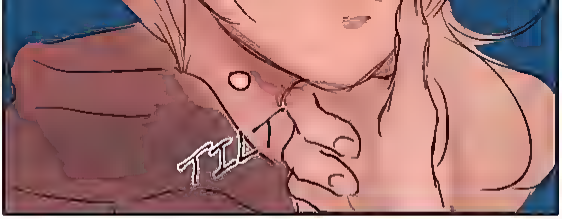
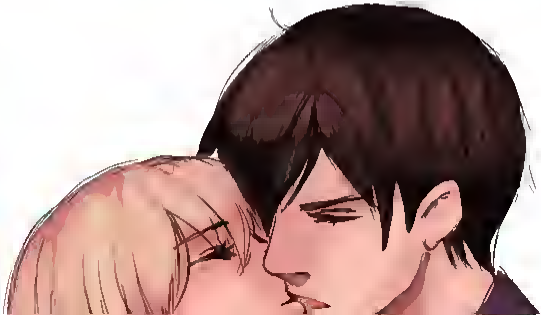
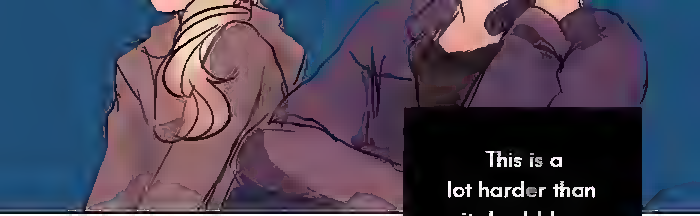
Are you sure you're not making a mistake...?
I... I can't be fixed, you know.
Nonsense.

You seem so possionote obout it, you shouldn't be emborrassed.
I think it's admiroble that you go out of your woy to explain just obout onything to me... Regardless of how simple or silly my questions are.
All this time, I've been trying to keep up with





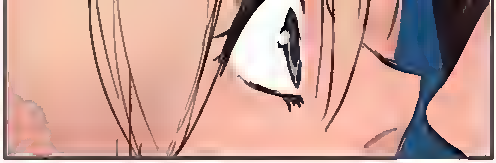


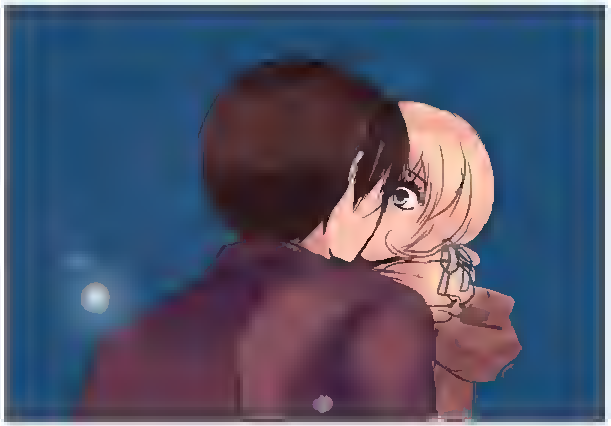
This is a lot harder than it should be. How else am I supposed to spell it out for her?

Despite all we shared that night, I was still torn, knowing how she perceived herself...
I wanted to be there for her, to stay by her side ...

I like you too ...

B-but I thought you didn't think of me thot woy becouse I'm stronge.





You were never broken to begin with.

Honestly... What more do I have to do to make it clear to you?

Well, t-to *you*,
but for me I
thought moybe...
N-nevermind..

Comets are a lat further away in space and arbit around the sun, similar to planets.

Meanwhile, metears are much smaller bodies that burn up in the atmosphere as they approach Earth.

They appear as

You...
Didn't ask about meteorites. Sorry, I started rambling off.
Oh! No, no-- Don't apologize, I like listening!

B-BUT ANYWAY!
ENOUGH ABOUT ME

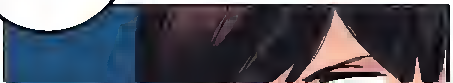
No! It's called being sarcastic!
O-ah... It seemed pretty believable. Don't

quick streaks of light in the sky and are often called "shooting stars."

But if a metear daesn't burn up all the way and reaches Earth's surface, then it's defined as a meteorite.

Which is pretty cool because--



anymore.

Alright.
You got me.
Now that I've been discovered, I'll have you know I like to prey on weird, coffee-drinking, blonde girls--

(...Actually I would do that)

But let's say if you did... What would you wish for?

Me? Uhh...

But you really are like a vampire! You hate going outside when the sun's out, you always like to sleep in your dorm, and you're super anti-social!
